**WILLIAM SULZER.**  
Democrats are well acquainted with Representative Sulzer of New York, and it was no surprise to them that Mr. Sulzer stood true when some other New York congressmen deserted. The Public, Louis F. Post's paper, pays to William Sulzer, this deserved tribute:  
"Suspicious regarding the Fitzgerald contingent on the democratic side in congress are fully verified. The insurgent republicans and the democratic democrats were defeated on the rules question by a counter combination of Cannon republicans and corporation democrats. The corporation democrats were drafted from the south and from New York City, where the corporation work through the democratic party and republicans have to play that they are democrats in order to get elected. There are many notable exceptions from the south; but every member from New York followed Fitzgerald's treacherous lead except two—an independent Brooklyn congressman and William Sulzer. Sulzer's case is especially noteworthy. Although he comes from the heart of the Tammany sphere of influence, he defied the commands of Tammany, and stood with his party and his principles instead of yielding to the corporations. It is only due him to add that his democracy has always been of the democratic variety."

**A MAN'S HOUSE HIS CASTLE.**  
That convenient but untrue theory that a man's house is his castle has been brought into use again to defeat the prohibition law in Alabama. The State statute forbids the storing of liquor in any inhabited building or apartment. The court holds that it contravenes the bill of rights in the constitution. The absurdity of the proposition is plainly seen when the things which such a legal theory would protect are pointed out. The prohibition is an exercise of the police power. If it may not be done, then a man could not be prevented from manufacturing dynamite bombs in his house, or from maintaining a nuisance or a contagious disease. The theory that a man may do what he will with his own, and may be secure from all molestation in his house is one subversive of organized society. The radically opposite one that the rights of the individual are secondary to those of the community is the only one upon which modern civilization community life can rest.—St. Louis Star.
